Just a note to compliment you on your quick response to my request, and to thank you for the service. I would be pleased to let others know of the good things you're doing.

All of your pdf reports arrived in fine shape and are much appreciated. You make a convincing case for the HP 5000 printer and Scitex EverSmart scanners -- a bit rich for my budget, but used by some local photo-processors. Thanks very much for your continuing reportage, and for taking time to send me those reports.

December 11, 2001, Chris B.

Thank so much for your fast response to my inquiry. Your research is really helping me solve a problem in reproducing my original oil paintings into giclee prints on canvas

December 5, 2001, Michael D.

Your sites are a treasure trove of information for me and FLAAR is to be commended for providing the information.

December 8, 2001, Ben H.

December 3, 2001, Dan P.

printer documents that you sent are precisely what I need to begin this part of the journey. And most certainly I will relay the information to at least two colleagues -- accomplished landscape photographers from Utah -- and as many others as I can.

December 9, 2001, Dwight M.

I would like to thank you both for all the info you sent me. I really appreciate all the help.
